ARCHITECTURAL Recessed 16

Different Pre-Set Programs to Choose from – based on customer input!

Comfort Plus (heated models only)

Protection of an air curtain combined with the benefits of a space heater. This mode operates the air curtain when the door is open and provides supplemental heat whether the door is open or closed, until both the thermostat and the time delay are satisfied.

Special feature: When the door closes, the air curtain switches to low speed with heat until the thermostat is satisfied.

Recommended for spaces that often need additional heat.

Deluxe (heated or unheated models)

Air curtain turns on when door is opened, when the door closes, the unit remains on until the time delay expires.

Recommended for high traffic openings or for openings where the door stays open for an extended period.

Auto (heated or unheated models)

Air curtain turns on when door is opened, when the door closes, the unit turns off.

Recommended for low traffic openings or for openings where the door stays open for an extended period.
