ELECTRIC HEATING AND VENTILATION Continuing Education and Training Programs

Complimentary “Lunch & Learn” presentations for architect and engineering firms, private companies (contractors/distributors), and public sector agencies

The concept is simple – select a presentation from the list below and our Liberty Electric Products subject matter expert will come to your office, will provide lunch or breakfast, and will spend 45-60 minutes sharing their knowledge, expertise, and experiences with your team.

This program is designed to educate participants and provide a comprehensive understanding of the various activities involved with each of these topics ranging from code compliance to installation instructions. You may also request a customized presentation that can address your specific needs along with a mixture of the below topics.

Many of our classes qualify for 1.0 professional development hour (PDH) for professional engineers and/or 1.0 learning unit hour through the American Institute of Architects (AIA).
